Furniture Case Study

- Client: Wake Med
- Project: Patient Registration
- Scope: 10 Patient Registration Desks, 140 Seats for Lobby
- Products: AIS Matrix, Lazy Boy
- Overview: This project was a collaboration with many parties to find the perfect solution. First we were invited by on site facilities to present a solution that would work better than the existing built-ins. We presented a solution that allowed flexibility and function and kept in line with the integrity of the space. We also worked closely with an outside construction company on the dimensions, electrical and data requirements. Because this was such a highly visible area, all finishes and furniture selections were approved by the board. All American successfully completed this project with a creative strategy within the guidelines of the project.
